

SURVEY OF INTELLIGENCE INFORMATION SYSTEMS

15 JANUARY — 2 FEBRUARY 1973

The Intelligence Community Information Science Training Program announces a third course in its curriculum: a three-week "Survey of Intelligence Information Systems." This interagency course is designed to introduce professional intelligence personnel to the uses of information handling systems and their application in the Intelligence Community.

Each student will be taught to use a computer terminal and to apply computer library programs to intelligence problems. Fundamental techniques applying the principle of Information Science to the solution of intelligence analytic problems will be demonstrated. Field trips to NSA, CIA, and other community agencies will emphasize the role of computer-based intelligence information handling systems. Selected developments throughout the Intelligence Community will be described by members of the Information Science faculty and guest speakers.

OBJECTIVES:

1. To familiarize the student with the capabilities, limitations, contents, and applicability of major operational intelligence systems in the Intelligence Community.
2. To introduce the student to developments in Systems Concepts as a vehicle for the cross-fertilization of techniques and ideas throughout the Intelligence Community.
3. To improve the student's ability to communicate with professionals in this field.
4. To provide a wider range of rational choices to the professional in the analysis, problem solving, and decision making tasks he encounters, through an introduction to Community-wide applications of Information Science techniques.

ELIGIBILITY:

GS-09 through 15 officers, or those with equivalent military rank whose responsibilities require a knowledge of the information handling systems in use in the Intelligence Community. Top Secret security clearance with access to SI/SAO certification is required. No previous technical or scientific education or training is necessary.

The applicant's agency or department should be prepared to transmit certifications to DIA/SAO (Pentagon) for the Security Officer, Defense Intelligence School, and separately to the Registrar, Office of Training, CIA. The certifications must cite student name, social security number, date and title of course, as well as clearance status.

DATE and TIME:

15 January through 2 February 1973. 0830-1630 hours, three-weeks, full-time.

LOCATION:

Building T-4, Room 100, Anacostia Annex
U.S. Naval District Washington, Washington, D.C. 20390
No transportation will be provided, but parking space will be available.

REGISTRATION:

Training Officers in each Agency or Department will receive requests for enrollment. They will then prepare a memorandum which will contain, in priority order, the names, grades or ranks and social security numbers of the applicants. This memorandum must be received at the following address no later than 3 January 1973.

**REGISTRAR, OFFICE OF TRAINING
CENTRAL INTELLIGENCE AGENCY
